Mistorical Re / iniscences of General Jose Antonio Pacz.

In the Narrative of the expedition to the rivers Oranoco and Apure, which sailed from England in November, 1817, and joined the patriotic forces in Venezuela: by G. Hippisley, Esq. Colonel Commandant of the Drittsh Brigade in South America. Published in London, 1819, on page 387 of the work is the following description of the person of General José Antonio Pacz, by Colonel Hippis sy, who knew the General personally:—

"Pacz was a man of about five feet seven inches high, rather fleshy, plump, round face, fair complexion, and most prepossessing countenance. He appeared in adark blue jacket, sabre, cocked hat, with a large silver cockade in front, as he wore his hat, as the sailors say, fore and aft."

On page 416 of the same work, we fad the following:—

"Many appendix are told relative to Pacz, and had heard. Paez instantly changed the countersign, selected a few officers, with orders to move
circuitously, and concentrate as near as possible on
the point designated. The picket was directed not
to interrupt the entrance of any stranger; and so
well was the Spanish party entangled, that the
emissaries entered the general's hut, and found it
empty, only the moment before they were seized.
Not one of the party escaped, and some of them
revealed the whole design; others were detected as
desertere, and they were, by the sentence of a
court martial, disposed of as traitors and assassins.
That intelligent and prudent boy, Autonio, the
adopted son of General Paez, is the youth who is
now admitted, for education, in the United States
Military Academy, West Point. MARRIAGE:

Indeed, several of our countrymen were witnesses to his exploits. Though almost a general of his own authority, yet he is too powerful for even Bolivar to dispute his 788, which he has, therefore, fully acknowledged. Paez is self-taught, and sprang up all of a sudden, Paez is self-taught, and sprang up all of a sudden, from nothing, during ... **execution.** before which from mothing, during ... **execution.** before cesses, and the numbers of his followers, speedily gained him a name. The quickness of his movements, the rapidity with which he pursued the flying enemy, the personal conflicts in which he had been engaged, and the conquests he had made, both collectively and individually, rendered him the admiration of his adherents, and the dread of the nemies, into whom his very name struck terror, as they advanced to the plains and savannshs to encounter him. His followers, too, were all so many Paezes, looking up to their general as a superior being, to whose mandate upwards of four thousand brave men paid implicit obedience. On the parade, or in the field, Paez was their general and supreme. In the hours of rest from the fatigues of a long and rapid march, or from conquest over the enemy, and the retaliation rigidly enforced, Paez would be seen dancing with his people, in the ring formed for that purpose, smoking with them, drinking from the same cup, and lighting the fresh segar from the cone in the mouth of his brother soldier. "On intelligence (for he kept his widetics on the slert, and never was surprised on his post) of the approach of the enemy, the words, "Come away, my brave boys!" uttered in Spanish, were sufficient. In a few minustes all were ready, and with this hero at their head, they were invincible; and it i McGeorge Mrs. Nagle Catharine Nathans Hester Narport Martha E Newell Harriet Uhimae
